## CALDOFA'

Fireplace fan heater

### Certifications

IMQ

CE

### TECHNICAL AND PERFORMANCE DATA

Absorbed Current max (A)	0,18	Weight (Kg)	18
Frequency (Hz)	50	Delivery 1st speed (m <sup>3</sup> /h)	32
Insulation Class	II°	Max delivery at max speed (m <sup>3</sup> /h)	48
IP	21	Sound power Lw [dB(A)] - min speed	47
Voltage (V)	220-240	Sound power Lw [dB(A)] - mid speed	54

### DIMENSIONS

Size A (mm)	348
Size B (mm)	450
Size C (mm)	500-830

## CALDOFA'

Fireplace fan heater

### DESCRIPTION

• **Fireplace fan heater**

Caldofà is a new home appliance that reduces the use of the main heating system and optimizes the effectiveness of your fireplace.

• It's very simple and easy to operate. Simply place it in the centre of the fireplace and light the fire.

• Caldofà draws in cold air from the room, which is then heated by burning firewood, and sends the now heated air back into the room to circulate. It provides significant savings in heating costs.

• Caldofà allows you to turn on your independent heating system much later, thus reducing its environment impact. The restraining tube prevents the excessive accumulation of firewood and its rolling out of the fireplace. This will help you cut down on the amount of firewood required and reduce both your purchasing and delivery costs and the destruction of forests. Caldofà is the first environment-conscious fireplace.

• Caldofà offers economy as you can reduce the time your main heating system needs to be on.

• Insulation class: C.L.I.

### ACCESSORIES

**CENERELLO -  
KIT ASPIRA  
CENERE**

Code 22994
